Additional feedback for facilitator

1. Very engaging art of facilitation. Sven has a deep knowledge of the topic, and can make the training interesting.
2. Very knowledgeable and experienced.
3. As I said: really good coaches, very appreciating, valuable feedback, good transfer of knowledge

Sven is always so positive and when you ask him sth. you really see that he is an expert.

4. very experienced coach, I really liked the insights he gave
5. I think Sven did a really great job and he is a great coach. I just feel like he should give some more "honest" feedback in the sense of giving more feedback about what people can do better and where they can improve. His feedback was in my opinion too positive in several situations.
6. Sven is an extremely engaging and resourceful facilitator. His sense of humor, emphasis on key take aways, and structured approach (leaving lots of space for creative freedom/exploration) was perfect for this workshop!
